We can find many people still suffering the effects of scar tissue long after the trauma. Whether scarring has occurred through an accident or a surgical procedure, scar tissue is a commonly seen phenomenon with most patients. More significantly are the secondary effects that scarring produces. The treatment strategies we will cover belong to the remarkable case histories of Dr. Manaka, Kazuko Itaya, Kawai, Nagano and Kiiko Matsumoto. Topics to be covered will include:

- Scar Sites and Secondary Diseases Produced
- Hysterectomy scars and various abdominal area scars
- Appendix scars
- Failed Back Surgeries and laminectomies
- Immunization scars
- Dr. Kawai's 3 By-Pass Cords and Pachi Pachi
- Silver Chain, Foil and Diode Ring Treatments
- Moxa and Intradermal Treatments

This seminar will take us beyond the simple approach of just needling the scar, and give us advanced treatment strategies to resolve the complications of scar tissue. We will also cover treatments for many pain and injury based treatments. The workshop will involve as much hands-on practice as possible, tools and equipment will be available for purchase at the workshop.

- Kawai Triple by pass cords

Anyone having experienced a knee or foot injury will attest to the tremendous pain and disability it produces in the everyday activities of life, incapacitating us and restricting any free movement. Knee problems are often related to, or directly caused by, weak ligaments. Other causes include; flat back, arched back and vascular compression of the inner thigh. Whilst the supination and pronation of the ankles lead to structural problems observed in the way we stand, walk and sit. The imbalances in the ankles and feet can affect the legs, hips, knees, pelvis and back, leading to secondary effects like sciatica, scoliosis, gynecological problems and poor circulation. The treatment strategies we will cover belong to the remarkable case histories of Dr. Manaka, Kazuko Itaya, Kawai, Nagano and Kiiko Matsumoto. Topics to be covered will include:

- Weak Area's: Rectus Femoris & Ligamentum Patella
- Inflammation Area's: Iliotibial Tract & Sartorius Tendonitis
- Inguinal Ligament Syndrome
- Fluid in the knee
- Heavy legs and knee pain in general
- Heel spurs and heel pain
- Acute and chronic sprained ankle
- Bunion pain & Calf cramps
- Plantar fasciitis & Achilles tendonitis (drop foot)
- Gout pain & Neuroma

This seminar will give us advanced treatment strategies to resolve the pain and complications that arise from the feet and knees. The workshop will involve as much hands-on practice as possible, tools and equipment will be available for purchase at the workshop.

BIO:

Lecturer: Paul Movsessian

After graduation Paul moved from Australia to the USA to further his studies. His interest was in the Japanese style of acupuncture and he trained under Stephen Birch and Junko Ida, learning the treatment techniques of Dr. Manaka and Meridian Therapy. He also studied with Kiiko Matsumoto, and was exposed to a wide variety of styles taught in Japan.

Paul has also trained in the Toyohari system of Meridian Therapy in Japan and Europe under the guidance of such teachers as Akihiro Takai, Shuho Taniuchi, Koryo Nakada, Shozo Takahashi, and the late Toshio Yanagishita (*past President of Japan's Toyohari Association*).

From 1989 until 1996 he maintained a busy practice, lectured and undertook postgraduate studies including the study of Dr. Shen's pulse methods under Dr. Leon Hammer; Sôtai and Shiatsu from Kikuko Zutrau Miyazaki.

Upon his return to Australia, Paul has been managing a successful clinic and lecturing extensively to introduce the Japanese styles to practitioners in Australia. He has established the postgraduate certificate course in Dr. Manaka's protocols, in collaboration with Stephen Birch and Junko Ida, as well as setting up the Toyohari model and teaching it throughout Australia and NZ.

He is currently the President of the Australasian Toyohari Branch, a Registered Academic Practitioner and a qualified teacher with the Toyohari Association of Japan.
